2014 BENEFICIARY STATISTICS AT THE RED CROSS WAR MEMORIAL CHILDREN'S HOSPITAL

The Hospital manages on average 250,000 patient visits each year comprising 176,443 outpatient visits, over 21,000 inpatient admissions and approximately 55,000 patient visits to Allied Health professionals which includes Clinical Psychology, Diabetic Education, Dietetics, Occupational Therapy, Physiotherapy, Social Work, Speech Therapy, Audiology, Stomatherapy and Tracheostomy Care.

Between 96% and 98% of the children treated are Black as per the Codes of Good Practice.

The tables below show the statistics that we receive from the Hospital's Information Management Unit. The table shows that the majority of patients treated are from Black, Asian, and Coloured communities.

These statistics are greatly under-recorded because for approximately 13% of patients the parents and staff do not specify the race and/or gender of patients being treated at the Hospital. Hospital management and staff will however verify the majority of the patients' ethnicity is Black as per the Codes of Good Practice.

Patient demographics for January 2014 to December 2014 are as per the table below.

| TOTAL Patient Visits = | | 252,970 |
|-------------------------------|--------------|----------------|
| | Total | % |
| Outpatient | 176,443 | 69.7% |
| Allied Health | 55,218 | 21.8% |
| Admissions | 21,309 | 8.4% |

| Gender | Total | % |
|---------------|--------------|--------------|
| F | 111,450 | 44.1% |
| M | 141,470 | 55.9% |

| Ethnicity | Total | % |
|------------------|--------------|--------------|
| Asian | 951 | 0.4% |
| Black | 93,500 | 42.4% |
| Coloured | 118,549 | 53.8% |
| White | 7,353 | 3.3% |

*patients whose ethnicity was unspecified were not included in this analysis

100% of funding that we receive goes directly towards the Hospital, not a cent is spent on administration or operational expenses.
